DETAILED ACTION

1. This Office Action is in response to communication filed 3/29/04 (paper #7). Claims 1-18 are pending.

Allowable Subject Matter

2. Claims 1-17 are allowed.

Claim Rejections - 35 USC § 112

3. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

4. Claim 18 is rejected under 35 U.S.C. 112, first paragraph, as containing subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. The limitation "extracting relations between the previously assigned keywords... and the equivalent list" is not described in the specification. The Applicant is advised to point out where this limitation can be found in the specification.

5. Claim 18 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

The limitation “extracting between relations the previously assigned keywords ...the equivalent keyword list” is unclear since his limitation does not set the metes and bounds of the claim.

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

2. Claim 18 is rejected under 35 U.S.C. 102(b) as being anticipated by Hattori (5,761,496).

Hattori teaches a method for generating relations between keywords extracted from documents comprising:

“Storing documents with previously assigned keywords”(figure 1, his database 160, col. 9, lines 60-65);

“obtaining an initial keyword hierarchy and an equivalent keyword list” (his rel. keyword gen. Select. 121, col. 10, lines 6-25); and

“extracting relations between the previously assigned keywords... and the equivalent keyword list” (his BKGD knowledge stor. Sect. 140. col. 10, lines 24-38, col. 11. lines 30-60, col. 14, lines 30 to col. 20, line 11).
